2012 - 2014

## The leader in quality and innovation, decade after decade.

For over 50 years, Sunbrella has been the leader in performance fabrics. And there's good reason people look to Sunbrella first for their fabric needs. No one else brings so much under one revolutionary, stylish brand.

No other resource is more committed to leading the performance fabric industry with innovations that fit today's lifestyles. With enhanced quality, additional colours and sophisticated styles, the next generation of Sunbrella offers more possibilities than ever.

a BEAUTIFUL  
performance

**Enduring Colour**

Sunbrella colours stay strong and vibrant, even through intense sunlight exposure and cleaning with bleach.

**Sumptuous Hand**

Sunbrella fabrics are as soft and inviting as they are durable.

**Dramatic Effects**

Sunbrella fabric is available in hundreds of solids, stripes and textures as well as exquisite decorative jacquards.

**Worry Free**

Sunbrella fabric resists stains and fading, so you can stop worrying about your fabric and enjoy life.

# In harmony with the environment.

Sunbrella creates no wastewater from dyeing.

Sunbrella® fabric's unique colouring process avoids harmful effluents associated with conventional dyeing processes. It also dramatically reduces water and energy consumption.

Sunbrella finishing processes consume less water.

Continual improvement in the Sunbrella finishing application process at the Wasquehal, France plant allows us to use the same water several times for successive operations, as well as to recycle most of our wastewater. Heat from our wastewater is also recuperated to warm our clean water.

Sunbrella fabrics are extremely durable.

Sunbrella fabrics are engineered to last two to ten times longer than conventional fabrics. Thanks to their extended lifecycle, the long term environmental impact of Sunbrella fabrics is considerably less than that of cotton canvas, for example.

## Sunbrella fabrics are safe for people and nature.

Sunbrella fabrics have been tested according to Oeko-Tex 100: this label certifies that they contain no harmful substances, and present no hazards to health, skin or the environment.

## Sunbrella fabrics are Greenguard Indoor Air Quality Certified.

The Greenguard designation ensures that Sunbrella fabrics are a low-emitting product and can be used indoors or in any application where enhanced air quality is preferred with the confidence that these fabrics will contribute to healthy indoor air.

## Sunbrella fabrics are durable.

Sunbrella superior pigments are added during the production of fade-resistant Sunbrella fibre. The final result is Sunbrella yarn and fabric with colour throughout that won't fade or wash away. Think «carrot».

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The colour only penetrates the outer layer and washes out or fades away over time. Think «radish».

## Sunbrella fabrics are easy to clean.

Sunbrella fabrics are amazingly easy to maintain, and most spills can be cleaned with mild soap and water. For tough stains, bleach can be used without fear of damaging the fabric or removing the color.

The best way to keep Sunbrella fabrics looking good is to properly maintain them by brushing off dirt before it becomes embedded and wiping up spills as soon as they occur.

Additionally, a topical finish is applied to all Sunbrella fabrics to help them repel liquids making it even easier to maintain.

## Sunbrella fabrics protect you from the elements.

The Skin Cancer foundation recommends Sunbrella as a part of your complete sun protection regime, including regular use of sunscreen.

\* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Velum

SUNBRELLA® INDOOR & OUTDOOR FURNITURE FABRICS  
CONVENTIONAL 5-YEAR WARRANTY ON 12/14/2010

Dickson Constant warrants the rot-proof properties and colour fastness (7/8 minimum colour fastness under exposure to ultra-violet rays and bad weather conditions, according to the NF EN ISO 105 B02 and NF EN ISO 105 B04 standards – variations in shade over time are therefore limited) of its Sunbrella indoor & outdoor furniture fabrics for 5 years (starting from the date on which the finished product is purchased). **This warranty is valid for any purchase made after 12/14/2010, under the following terms and conditions:**

- Dickson Constant shall replace free of charge the section of fabric recognized as faulty, excluding any costs or any other compensation for any reason whatsoever.
- Any complaint must be sent within ten days of the defect being noticed, accompanied by the purchase invoice, via registered mail with confirmation of receipt to the retailer where the product was initially bought. He will acknowledge the defect and transmit your request to Dickson-Constant.
- The fabric must be kept available to the experts of Dickson Constant or its insurance company.
- Replacement or reimbursement of the defective fabric does not extend the duration of the original warranty.

**This conventional warranty covers only the rot-proof properties and colour fastness of Sunbrella fabrics regularly maintained, under normal use and environment.**

**Consequently there is no cover for:**

- The benefits not performed by Dickson Constant: sewing of the fabric, etc.
- Parts of the product other than the fabric manufactured by Dickson Constant: frame, etc.
- Imperfections such as mottling, waffling, folds, etc. due to handling during preparation of the product or its installation
- Defects due to the aging and normal wear of the fabric
- The consequences of the conditions of installation, the environment or the use not corresponding to the normal conditions, uses of the profession, standards prescribed by Dickson Constant or the destined use of the fabric
- The repair of damage or defects in the fabric resulting from accidents or negligence not attributable to Dickson Constant or resulting from force majeure.

**Expressly excluded in particular is any deterioration due to:**

- The elements and materials associated to the fabric in the finished product
- Faulty maintenance or the use of unsuitable products or instruments: no detergent, chemical product or solvent can be used, nor any scraper or other instrument that may damage the surface
- Lightning or unusual climatic or environmental conditions
- Atmospheric or phytosanitary pollution
- Soiling caused by animals
- Faulty assembly or handling by the user, the projection of various products, hanging objects on the fabric, falling objects, bumps, road accidents, vandalism, burns from cigarettes or other sources, fire.

This limited warranty shall under no circumstances pose an obstacle to the legal guarantees.

## Care and cleaning

Comfortable, beautiful, and oh so liveable, Sunbrella fabric makes the dining or living room as worry-free as the outdoor room. It's amazingly easy to maintain, and most spills can be cleaned with mild soap and water. For tough stains, bleach can be used without fear of damaging the fabric or removing the colour. With this kind of durability and a wide range of styles, what's not to love?

One of the best ways to keep Sunbrella fabrics looking good and to delay deep or vigorous cleaning is to properly maintain the fabrics. This can be accomplished by simply brushing off dirt before it becomes embedded in the fabrics, wiping up spills as soon as they occur or spot cleaning soon after stains occur.

### General or light cleaning

- Brush off any loose dirt.
- Machine wash at 40°C or hand wash as follows:
- Prepare a cleaning solution of 60 ml mild soap for 4 l of lukewarm water (less than 40°C).
- Clean with a soft bristle brush and allow cleaning solution to soak into fabric.
- Rinse thoroughly and allow fabric to air dry.
- If necessary, use an iron set to "synthetic fabric" heat. DO NOT use a steamer or an iron with steam setting.

### Heavy cleaning for stubborn stains and mildew

Sunbrella fabric does not promote mildew growth, however, mildew may grow on dirt and other foreign substances that are not removed from the fabric. To clean mildew, or other stubborn stains:

- Prepare a solution of 240 ml of bleach and 60 ml of mild soap for 4l of clean water. Spray on entire area and allow to soak into the fabric.
- Scrub vigorously with a soft bristle brush, rinse thoroughly and allow fabric to air dry.

For removable Sunbrella fabric umbrella and cushion covers, machine wash in cold water (less than 40°C). Depending on wash load size, use normal amounts of mild laundry soap and add 240 ml of bleach if needed. Allow fabric to air dry. If stain and/or mildew are severe, bleach quantities may be increased.

### Re-treating the fabric for ease of cleaning

Sunbrella fabrics have a special finish that enhances water repellency. The finish is designed to last for several years of normal use, but may be refreshed with 303 High Tech Fabric Guard™, the preferred re-treatment product for Sunbrella fabrics.
