Exteriérové stolové dosky

 sunbrella®

Exteriérová látka Sunbrella je tkaná z polyakrylových celofarbených vlákien. Všetky látky značky Sunbrella sú špeciálne navrhnuté na vonkajšie použitie (čalúnenia na exteriérový nábytok, slnečníky, vankúše, lehátko a pod.). Látka je farebne stála, priedušná, odolná voči UV žiareniu, plesniam, odpudzuje vodu a masť. Je ľahko udržiavateľná a môže ostať vonku za každého počasia. Je vhodná aj do interiéru, obzvlášť na miesta, ktoré sú vystavené slnečnému žiareniu (nevybledne).

Pri výrobe špeciálneho vlákna Sunbrella sú použité kvalitné pigmenty, ktoré zafarbia zmes, určenú na výrobu vlákna Sunbrella. Výsledkom toho je vlákno, ktoré je farebné skrz celé vlákno, vďaka čomu, látka vyrobená z tohto vlákna nevybledne a pri čistení sa nevymyje. Prierez vlákna Sunbrella možno prirovnať k prierezu mrkvy. Vo vnútri je rovnakej farby ako na povrchu.
